Number of Parameterized Reports	1
Number of Graphs/Charts	5
Included any trigger/other feature which is not taught in class. If yes, please explain briefly.	Yes we have included a trigger to check if an event is already in full capacity or not. The trigger will stop the registration process if it is. And another trigger to set the eventstatus to Event Over when date is over

Write the most unique feature/functionality in your application or the page of your application that you are proud of. Explain briefly.

The screenshot displays a web application interface for Event Management. The left sidebar contains a menu with items: Event Management, Registration Form, ATTENDANCE_REPORT, Event Activity Information (selected), Registration Per Activity..., Registration Report, Activity_Report, Role, Category, Timeslot, Room, and Event_Status. The main content area is titled "Event Activity Information" and includes a search bar, a "Reset" button, and a "+ Create" button. Below the search bar, there is a list of events: "123 Event Over", "AI and Robotics Symposium Scheduled", "Blockchain Technology Workshop Scheduled", "Capstone Project Seminar Scheduled", and "Cloud Computing". The right side of the interface shows a detailed view of an event titled "Seminar with Future IT Industry Leaders", hosted by "IT Club", with a budget of "1200", a description of "A seminar with industry leaders discussing future trends.", a location of "Nousher Ali Lecture Gallery", a capacity of "250", a status of "Scheduled", a start date of "3/14/2023", and an end date of "3/14/2023". An "Edit" button is visible next to the event title. The bottom of the screen shows a footer with navigation links: App 224102, Page 47, Session, Debug, Quick Edit, and Customize.

10. Concluding Remarks

In conclusion, the Campus Event Management System project has been a significant learning experience. The development process was not without its challenges. It not only meets our initial objectives but also sets a strong foundation for future developments. Due to time constraints we couldn't meet our desired outcome.

With a lot of quizzes and other projects, it was really challenging to complete it perfectly.
